Dear Mark:

As regards a letter sent to KRLA concerning your proposed transmission of signals to and from the moon, by means of a Laser device, on Friday, August 20, 1965, please be advised that we are interested in knowing more about your plans and the participation suggested for KRLA.

It would please us very much if you would either write or call collect to further investigate the possibilities. Please write or call me personally.

Thank you very much.

Kindest Regards,

A large, stylized handwritten signature in blue ink, which appears to read "Mel Hall". The signature is written over the typed name and title.
